

As an avid listener to stations that serve our area on FM translator stations it is my family's fervent hope that you will consider not allowing LPFM to dominate our airwaves. These translators allow us to listen to programming not typically available in our west Texas market. Furthermore community programming specific to our family's needs would not be broadcasted to meet our needs. The public in our area needs programming such as KLOVE or positive music from KGNZ to meet the growing spiritual needs our part of the state of TX needs.

Respectfully yours,

Bret Burton
